We Work Remotely

Remote Jobs

Before:

Office worker wanting flexibility

After:

Fully remote professional

Olivia found her current role through We Work Remotely. The site's curated remote job listings from companies like Google and Amazon made her job search efficient. She now works from home for a tech company, earning more than her previous office role.

\$ Earnings

£4,500+/month

FlexJobs

Remote Jobs

Before:

Skeptical about remote work sites

After:

Remote job finder

Henry was tired of scam job listings. FlexJobs' curated, verified remote opportunities gave him confidence. He found a legitimate remote customer support role within weeks. The subscription fee was worth avoiding fake listings and saving time.

InboxDollars

Surveys & Research

Before:

Multi-tasker wanting extra income

After:

Diverse earner on one platform

Rebecca liked that InboxDollars combined surveys with cashback shopping, video watching, and game playing. The \$5 signup bonus got her started. Surveys pay in actual cash amounts rather than confusing points, making earnings transparent.

\$ Earnings
£80-£150/month

PrizeRebel

Surveys & Research

Before:

GPT site newcomer

After:

Tiered member with 30% bonuses

Paul discovered PrizeRebel's tiered loyalty system rewarded consistent users. As he completed more surveys and offers, his bonus percentage grew to 30%. Daily challenges and contests add extra earning opportunities. The low \$2 payout threshold keeps motivation high.

Toluna

Surveys & Research

Before:

Survey taker wanting variety

After:

Active community member

Natalie joined Toluna's 21+ million member community. Beyond surveys, she participates in polls and product testing opportunities. Points convert to cash or gift cards. The mobile app makes completing surveys convenient during her daily routine.

\$ Earnings

£50-£120/month

Forthright

Surveys & Research

Before:

Frustrated with minimum payouts

After:

Instant payment survey taker

Charlie loved Fortright's unique approach: instant PayPal payments after each survey. No points, no minimum thresholds – just complete a survey and get paid immediately. The clean mobile experience makes it easy to earn during any spare moment.

\$ Earnings

£40–£80/month

Google Opinion Rewards

Surveys & Research

Before:

Android user wanting free apps

After:

Consistent micro-earner

Emily downloaded Google Opinion Rewards and answers quick location-based surveys. Each pays £0.10-£1 and takes under a minute. Over a year, she's earned £80+ in Google Play credit, funding app purchases and game extras she'd never buy otherwise.

\$ Earnings

£60-£100/year
