How To Use This Plan

Big money goals fail because we try to fix everything at once. This plan gives you ONE focus each month. Do that month task, then relax — you are allowed to ignore everything else. Twelve small wins compound into a complete transformation.

You do not need willpower — you need a sequence.
One month, one move.

The First Quarter In Detail

Month 1 — See The Truth

Record every single transaction for 30 days. No judgement, no changes yet — just awareness. You cannot fix what you cannot see.

Month 2 — Give Every Pound a Job

Split your take-home pay into 50% needs, 30% wants, 20% savings. The Budget Command Center spreadsheet in this pack does the maths for you.

Month 3 — Build a Buffer

Save a 1,000 starter emergency fund as fast as you can. This one buffer stops a flat tyre or broken boiler from becoming new debt.

Make It Stick

Action Checklist

- Automate everything — pay yourself first on payday.
- Put this month's focus somewhere you see it daily.
- Track your net worth monthly (use the Net Worth Tracker).
- Celebrate each month's win — momentum is the secret ingredient.

IncomeOnline Expert Tip

Do not try to run two months at once to "catch up". One focus per month is the whole point — stacking tasks is how people burn out and quit by March.

In 12 months: a budget, an emergency fund, a debt plan, investments started, and a will. That is a different life.
